Dear Mr. Vaughn:

Jim
I wish to express my thanks to you and Mr. Andrus for taking the time to meet with me and members of my staff on Wednesday, January 15, 1986, to discuss Energy Fuels Nuclear's past activities and future plans for the Straight Creek area. It is our understanding that drilling activity in one portion of the project area is not yet complete and will be continued in September of 1987. Rehabilitation operations consisting of recontoring and revegetation are planned by Energy Fuels Nuclear for this area once drilling operations are complete. Further it is our understanding that recontouring and revegetation measures will be undertaken during late February or early March of this year in those areas where exploration operations are complete. As discussed at the meeting, members of my staff will be available at this time to offer suggestions as to how these reclamation operations can be conducted.

Once again, thanks you for your cooperation in protecting our public lands and we look forward to working with you in the future.

Sincerely,

Area Manager

Seventy-Four----- dollars (\$62,074.00)
for the payment of which sum, will and truly be made, we hereby jointly and
severally bind ourselves, our heirs, administrators, executors, successors, and
assigns.

THE CONDITION OF THE ABOVE OBLIGATION IS SUCH that whereas the above
named principal did on the 8th day of August 1979, file with the
Division of Oil, Gas, and Mining a "Notice of Intention to Commence Mining
Operations" and a "Mining and Reclamation Plan", to secure authorization to en-
gage in mining operations in the State of Utah, under the terms and provisions
of the Mined Land Reclamation Act; that in said Notice the principal estimated
that 8.9 acres of land will be affected by mining. Said land is de-

and Reclamation Plan and shall faithfully perform all requirements of the Mined
Land Reclamation Act, and comply with the Rules and Regulations adopted in ac-
cordance therewith, then this obligation shall be void; otherwise it shall re-
main in full force and effect until the reclamation is completed as outlined in
the approved Mining and Reclamation Plan.

If the said approved plan provides for reclamation of the land affected
on a piecemeal or cyclic basis, and said land is reclaimed in accordance with
such plan, then this bond may be reduced periodically.

In the converse, if the said plan provides for a gradual increase in
the area of the land affected or increased reclamation work, then this bond may
accordingly be increased with the written approval of the surety company.

NOTE: Where one signs by virtue of Power of Attorney for a surety
company, such Power of Attorney must be filed with this bond. If the principal
